Prompt:

Create a premium, cinematic and highly interactive 3D website for a digital agency named **Supernova**.

The website should look like a custom-designed project worth several thousand dollars. It must not feel like a generic AI-generated template. Every section should have a strong visual concept, polished spacing, premium typography, smooth animations and meaningful interactions.

Agency Positioning

Supernova is a high-end digital agency that helps startups and global businesses build:

* Premium websites
* AI-powered web applications
* Mobile apps
* SaaS platforms
* UI/UX design systems
* Digital products

Target audience:

* SaaS founders
* Startups
* International businesses
* Premium brands
* Entrepreneurs looking for high-quality digital products

Overall Visual Direction

Create a futuristic, cinematic and immersive visual experience inspired by space, galaxies, stars and supernovas.

Use:

* Deep black and dark navy backgrounds
* Electric blue, violet, purple and subtle orange highlights
* Glowing gradients
* Glassmorphism elements
* Soft lighting and reflections
* Subtle grain and atmospheric effects
* Large bold typography
* Premium whitespace
* Smooth scrolling
* High-quality 3D elements

Avoid:

* Generic stock-template layouts
* Excessive text
* Cheap neon effects
* Too many colours
* Cartoonish illustrations
* Overcrowded sections
* Animations that reduce usability or performance

3D Hero Section

Design a full-screen cinematic hero section.

Include:

* An interactive 3D supernova, glowing planet or futuristic digital sphere
* The 3D object should respond subtly to mouse movement
* Small stars, particles and light trails should move slowly in the background
* Add depth using multiple layers and parallax movement
* Use smooth entrance animations when the page loads

Hero headline:

We Build Digital Experiences That Explode With Possibility.

Supporting text:

Supernova creates premium websites, AI applications and digital products for ambitious brands ready to grow beyond ordinary.

Primary CTA:

Start Your Project

Secondary CTA:

Explore Our Work

Add a small trust line:

Trusted by ambitious founders, startups and growing brands.

Custom Cursor and Interactions

Create a premium custom cursor.

The cursor should:

* Expand when hovering over buttons
* Display “View” when hovering over portfolio projects
* Display “Drag” over sliders
* React smoothly to interactive elements
* Remain subtle and professional

Add magnetic hover effects to important buttons.

Services Section

Create an interactive services section titled:

What We Create

Services:

1. Premium Website Design
2. AI-Powered Applications
3. Mobile App Development
4. SaaS Product Development
5. UI/UX Design Systems
6. Digital Strategy

Each service should appear inside a large premium card.

On hover:

* The card should tilt slightly
* A soft glow should appear
* Relevant animated graphics should become visible
* The background should shift subtly
* A short service description should expand

Interactive Portfolio Section

Create a visually impressive portfolio section titled:

Selected Missions

Show six fictional premium projects.

Project categories:

* SaaS Platform
* AI Application
* Mobile App
* E-commerce Experience
* Fintech Dashboard
* Luxury Brand Website

Display projects using an interactive 3D gallery, horizontal scroll experience or floating project cards.

Each project card should include:

* Project name
* Category
* Short result
* Premium mockup
* View Project interaction

On hover:

* The project image should move slightly with the cursor
* The card should scale smoothly
* Project details should reveal elegantly
* The custom cursor should display “View”

Create realistic project names and polished project descriptions.

Featured Case Study

Add one detailed case study section.

Show:

* Client challenge
* Supernova’s solution
* Services provided
* Final outcome
* Key project statistics

Example statistics:

* 3.2x increase in conversions
* 48% improvement in engagement
* 2.1-second loading time
* 60% reduction in user drop-off

Use animated counters and premium dashboard mockups.

Agency Process Section

Create a section titled:

From Idea to Impact

Show the process:

1. Discover
2. Strategize
3. Design
4. Build
5. Launch
6. Scale

Present the process using an interactive orbital system, curved timeline or connected 3D nodes.

When the user scrolls, each stage should activate sequentially.

Website Cost Calculator

Create a functional interactive project cost calculator.

Allow users to select:

Project type:

* Business Website
* E-commerce Website
* SaaS Platform
* AI Application
* Mobile App

Additional requirements:

* Custom UI/UX
* 3D Animations
* User Authentication
* Payment Integration
* Admin Dashboard
* AI Integration
* Advanced Animations

Timeline:

* Standard
* Priority
* Express

Display an estimated project range based on the selections.

Add a CTA:

Get a Detailed Proposal

The calculator should look premium and be easy to use.

Testimonials

Create a section titled:

What Our Clients Say

Add three fictional international client testimonials.

Each testimonial should include:

* Client name
* Designation
* Company
* Short testimonial
* Profile image
* Project category

Use an elegant carousel with smooth drag interaction.

About Supernova

Add a short agency introduction.

Headline:

Small Team. Massive Impact.

Copy:

Supernova brings together strategy, design, technology and AI to create digital products that move businesses forward. We work closely with a limited number of clients so every project receives serious attention.

Include animated statistics:

* 50+ Digital Products Launched
* 12 Global Markets
* 98% Client Satisfaction
* 8+ Years of Combined Experience

Final Call-to-Action

Create a dramatic final section with an immersive galaxy or supernova animation.

Headline:

Your Next Big Idea Deserves More Than an Ordinary Website.

Supporting text:

Let’s transform your vision into a powerful digital experience.

CTA:

Launch Your Project

Add an interactive glowing button and subtle background particles.

Contact Form

Include these fields:

* Name
* Email
* Company
* Project Type
* Estimated Budget
* Project Details

Budget options:

* $2,000–$5,000
* $5,000–$10,000
* $10,000–$25,000
* $25,000+

Show a polished success message after submission.

Header and Navigation

Create a transparent floating navigation bar.

Menu items:

* Work
* Services
* Process
* About
* Contact

Add a standout CTA button:

Start a Project

The navigation should transform into a compact glassmorphism bar after scrolling.

Footer

Include:

* Supernova logo
* Short agency statement
* Email placeholder
* Social media links
* Privacy Policy
* Terms
* Copyright information

Add the line:

Designed to go beyond ordinary.

Responsiveness

Make the complete website fully responsive.

On mobile:

* Simplify heavy 3D effects
* Maintain smooth performance
* Use touch-friendly interactions
* Keep typography readable
* Convert horizontal galleries into swipeable sliders
* Ensure the cost calculator works perfectly

Performance and Accessibility

* Optimize all animations for smooth performance
* Avoid unnecessary heavy effects
* Respect reduced-motion preferences
* Use accessible colour contrast
* Add proper heading hierarchy
* Add alt text to images
* Ensure keyboard navigation works
* Keep important content readable without animations

Final Quality Requirement

The final website should feel like it was designed and developed by a world-class digital agency.

Focus equally on:

* Visual storytelling
* Premium design
* Usability
* Performance
* Smooth animations
* Responsive behaviour
* Functional interactions

Do not create a basic landing page. Build a complete, polished and presentation-ready agency website that can be used as a premium portfolio project.
